

25% MEMBERSHIP DISCOUNT INITIATIVE **2008/09**

Unlike other golf clubs in the area we have once again not increased the annual subscriptions for 2008, for the 3rd consecutive year. The reason for this has been to ensure that we maintain our existing membership and also to attract new membership. However, as a result of this, the Club is looking at various initiatives to raise money in order to ensure that it is financially stable and also to improve the quality of the course and other facilities. If the Club can achieve 40 new full playing members by 31 March this year, this will significantly contribute to the ongoing financial wellbeing of the Club.

One such initiative is for the Club to offer existing members a 25% discount on next year's membership (2009) if a member introduces a new member this year (2008) and that member renews his/her membership in 2009. The 25% discount applies to each new member introduced to a maximum of the existing member's full subscription.

The 25% discount will be determined by reference to the category of member introduced, be it adult male, lady or junior member.

For example should a male member introduce 4 new full time male playing members this year and all of the new members renew their membership in 2009, that existing member will receive a refund of their full membership subscription for next year.

For further information please contact either Gwendoline Davies, Geoff Holmes or Dave Fisher (Membership Secretary), the latter of whom will be responsible for arranging this initiative.
